

Teacher's Note

- Check student's frog species and if they have coloured them correctly.
- Obtain library books about frogs beforehand to make the task a little easier.

Suggested Activities:

- ❖ Try contacting the zoo or a university, sometimes they have frog displays and lectures on frogs.
- ❖ Organise an outing to a local pond or natural waterhole. Go frog hunting with your students.
- ❖ Ask students to keep their eyes open for frogs in their own backyard. They could either write a short story on what they observed or tell the class what they saw in their backyard.
