

# Deforestation

## *Your Assignment:*

- I. Read about the above topic on the Teaching Treasures Web Site.
- II. Complete the online science quiz.
- III. Write a report using the questions below.

1. Identify an area anywhere in the world where deforestation has occurred.
2. Describe the area as it is now.
3. Describe the area as it was before deforestation took place.
4. For what reason has deforestation occurred here?
5. What effects did this have on the immediate human population?
6. What effects did this have on the immediate fauna?
7. What effects did this have on the immediate flora?
8. Has the area been rehabilitated or is it going to be?
9. What does it take to rehabilitate an area, which has been deforested?
10. Do you think there may be a better way to manage forests or is deforestation the best solution?
