

Keratin

Write five things that contain keratin.

Circle the correct answer:

1. Keratin is a *protein* / *acid* / *fungi*
2. Keratin is a *soft* / *tough* / *brittle* material
3. Keratin can be found on *plants* / *rock formations* / *animals*
4. Keratin can also be found in the tough *outer* / *third* / *inner* layer of skin.

Collect three things that contain keratin and glue or sticky tape them in the oval below.
