

Name _____

TASK 1

Choose 2 or 3 other students to work with. Quietly walk around the school and count the technology items you see.

ABC's
of
Technology's

Fill in the list below.

Technology item	Found where?	Used by?

Use another piece of paper if you need more space.

TASK 2

Make a poster together that displays the items written on your list. Draw the items or find pictures and glue these on your poster. Write in a fact box next to each picture what function the item performs.
